We empower the defense and intelligence community with advanced solutions to transform data into decisive advantages. Specializing in AI-driven analytics, Cloud computing, and robust cyber operations, we deliver mission-critical technologies to enhance decision-making and operational agility. Our unique approach turns complex, data-rich environments into actionable insights, providing clients with the edge needed to secure critical infrastructures and optimize cloud-based data strategies.

We don't just address today's challenges; we anticipate and innovate for the future. Guided by our core values of truth, trust, and transparency, we equip our partners with the tools to lead and dominate in a rapidly evolving landscape. We are not just solving for next—we are defining it.

We excel in Cyber Operations, AI/ML, Software Development, and Cloud Services, placing us at the forefront of digital warfare and intelligence. Our technologists drive innovation in Quantum Networking, Encryption, and Algorithm Research, shaping the future of secure and resilient digital environments.

Our proven track record of supporting mission-critical operations across multiple domains — Space (USSPACECOM), Air (USAF), and Cyberspace (US Cyber Command & US Army Cyber Command), — deliver impactful solutions that enhance operational readiness and superiority in complex, data-centric environments. We advance mission success and secure strategic advantage for our clients.

Cyber Resilience
- INCIDENT RESPONSE
- CYBER HUNT
- PENETRATION TESTING
- DCO/OCO PLANNING
- RISK & VULNERABILITY ASSESSMENTS
- CYBER FUSION & THREAT INTELLIGENCE
- CYBERSECURITY TRAINING
- QUANTUM-SAFE CRYPTOGRAPHY

AI/ML
- HUMAN TRUSTED AI
- MACHINE LEARNING
- DATA ANALYTICS
- SCIENTIFIC COMPUTING
- DATA GOVERNANCE
- ADVERSARIAL AI
- LARGE LANGUAGE MODELING
- ALGORITHM DEVELOPMENT

SW Development
- CUSTOM SW DEVELOPMENT
- AGILE PROJECT MANAGEMENT
- CLOUD-BASED SOLUTIONS
- CYBER TOOL DEVELOPMENT
- QUALITY ASSURANCE & TESTING
- LEGACY SYSTEM MODERNIZATION
- DATA SECURITY & PRIVACY
- DATA ANALYTICS & VISUALIZATION

Cloud Services
- CLOUD STRATEGY & CONSULTING
- CLOUD SECURITY & ZERO TRUST
- MULTI-CLOUD & HYBRID SOLUTIONS
- CLOUD APPLICATION DEVELOPMENT
- CLOUD MIGRATION SERVICES
- DevOps & CI/CD PIPELINES
- DATA ANALYTICS & AI IN THE CLOUD
- FINOPS: COST OPTIMIZATION

ACQUISITION VEHICLES

Prime: GSA Schedule
- Contract #: 47QTCA23D007Z
- HACS

Prime: SB Prime: JV - Vencedor Technologies, LLC
- Contract#: W52P1J18DA043
- POP: 11/07/22- 9/24/2027
- Contract Types: Multi-Award IDIQ, T&M, FFP, CR
- Ceiling: $12 Billion

Sub: Analytical and Technical Support Services (ATSS)
- Contract#: WS2P1J18DA043
- POP: 12/19/22 - 9/28/2028
- Contract Types: IDIQ
- Ceiling: $1.5 Billion

COMPANY PROFILE

FCL: Active
CAGE: 89JF0
UEID: EAXMYAR1KRA8

NAICS:
541330* | 513210 |541511 | 541512 | 541513 | 541611
541715| 518210 | 561110| 611420 | 611430

Truth, Trust, and Transparency, are at the foundation of every solution we deliver. These core principles drive our innovation, ensuring we meet and exceed expectations. Excellence in innovation is inseparable from the integrity with which we operate, making us a trusted partner in delivering dependable and groundbreaking mission-critical solutions.

With global data generation expected to surpass 200 zettabytes by 2025, organizations are grappling with the challenges of managing unstructured data at an unprecedented scale. A staggering 95% of businesses report difficulties in effectively handling this data, resulting in slowed decision-making, increased risks, and untapped potential. Traditional tools often fall short, unable to scale and adapt to the dynamic demands of modern data environments.
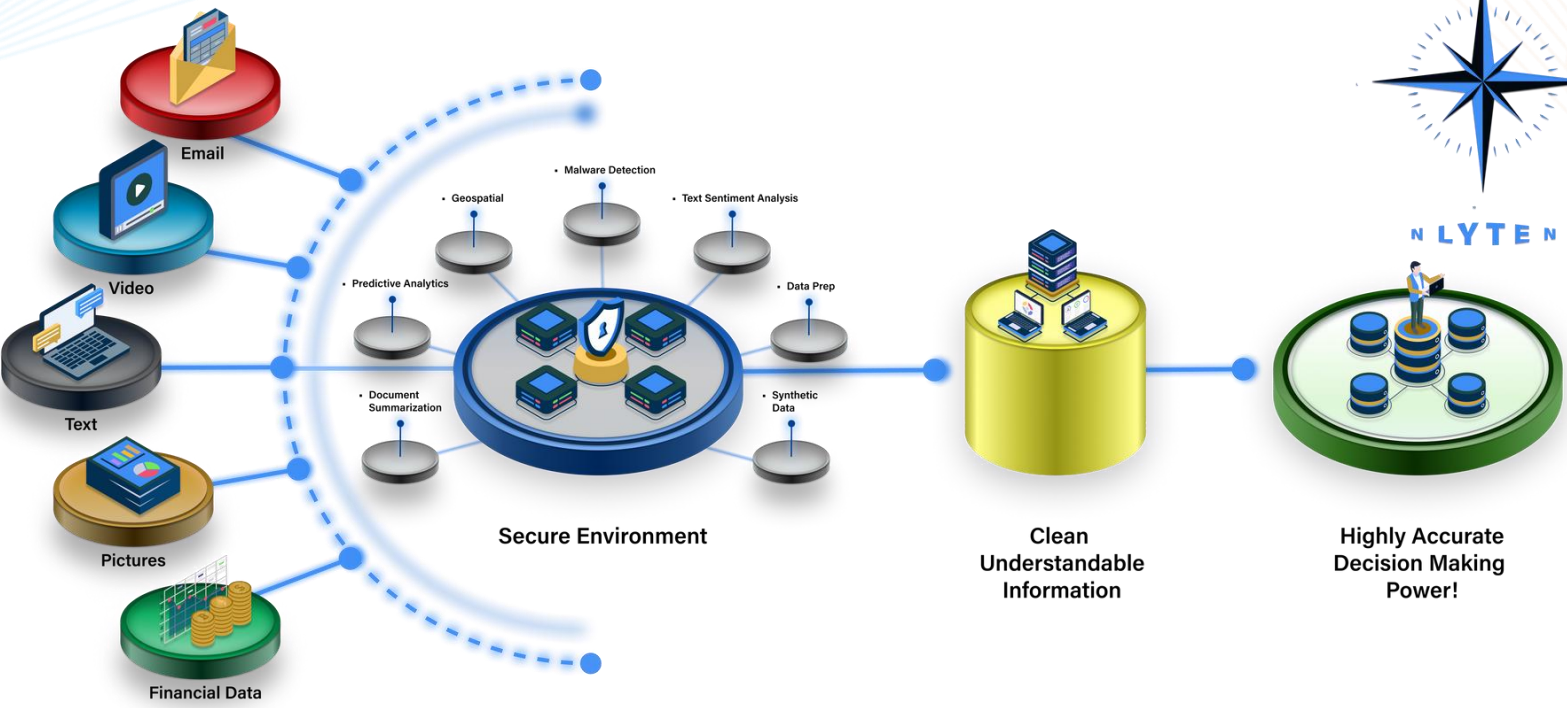

For critical sectors such as defense, intelligence, and national security, the stakes are even higher. Inefficient data management and personnel constraints can compromise operational readiness and hinder the ability to respond swiftly to emerging threats. Analysts are often overwhelmed by the sheer volume and complexity of data, lacking the tools needed to extract actionable insights quickly and accurately. Without a scalable, efficient solution, the gap between data potential and practical application continues to widen.

NLYTEN is a patented, customizable platform that redefines data management and analysis, currently trusted by the **US Secret Service**. NLYTEN's advanced AI and machine learning capabilities enable analysts to process and analyze infinitesimal levels of data with unparalleled precision, sharing findings while ensuring traceability and explainability. Designed with customization in mind, NLYTEN is tailored to each client's specific needs, ensuring optimal integration and performance within their existing infrastructure. Whether enhancing cybersecurity, optimizing data strategies, or supporting intelligence operations, NLYTEN delivers a scalable, adaptable solution that turns data challenges into strategic advantages, empowering organizations to make informed, real-time decisions with confidence.
